

SecureBack™ M Series Rugged Case Enclosure for iPad® Air — Black

K67829WW

Product Description

Protect your iPad from just about anything with a SecureBack M Series Rugged Case Enclosure for iPad Air. It utilizes dual layer construction, providing the maximum level of protection. The vulnerable corners receive extra protection and the raised bezel shelters the Retina® display from potential scratches. There's a built-in ClickSafe® anchor to protect against theft, as well. Simply click on a ClickSafe lock (sold separately) and your iPad is secure. The SecureBack M Series Rugged Enclosure can protect against dust thanks to its optional port covers. Maybe best of all, the Enclosure is expandable – with a host of accessories available sold separately, including the Rotating Hand Strap (K67832WW), Kick Stand (K67786WW), and POS Stand (K67773WW). Even with all this protection, the SecureBack M Series Rugged Enclosure preserves access to ports, speakers, and cameras. The Enclosure also offers cable routing and 75mm VESA mounting holes.

Features

- Strong, cushioned layer of rubber provides maximum protection against drops and bumps
- Raised bezel protects screen from scratches and damage
